“Paul Luchowski has a tremendous wealth of marketplace knowledge, given the fact his experience ranges from the grassroots to the international stage. With over 30 years in the sport of soccer, the marketplace can be dubious to the soccer business professional, and Paul’s knowledge, equity, and business connections allows his clients to achieve efficiency in an operation or sponsor fulfillment project. TGI hired PLSC to manage our delivery operations for the FIFA World Cup South Africa 2010 (Polokwane and Nelspruit), Copa America Centenario 2016 USA and CONCACAF Gold Cup 2017 and 2019 USA. PLSC’s primary role was to oversee and supervise the load in, game day and non-game day LED Operation and removal of the equipment. This required interface with the stadium management team, ground crew, Local Organizing Committees and the rights holders; in these cases, FIFA, CONCACAF/CONMEBOL, and CONCACAF respectively. PLSC acted as the liaison to ensure our delivery/operation remained flawless.”
